

KnowledgePulse® 2.0 | social and interactive knowledge

KnowledgePulse® is a pioneering learning technology that supports knowledge acquisition by a smart system of repetition, using intelligent learning cards. KnowledgePulse® 2.0 enables the efficient use of knowledge resources.

Benefit from more interactively and collaborative learning with the new features in version 2.0!

KnowledgePulse® goes social and interactive!

1. FEEDBACK

KnowledgePulse® 2.0 enables you to give immediate feedback on learning cards. Hence courses can be improved continuously!

> Collaborative quality

2. CREATE LEARNING CARDS

Add your knowledge by creating new learning cards. Then decide if you want to share your cards with other learners!

> Collaborative content

3. INDEX

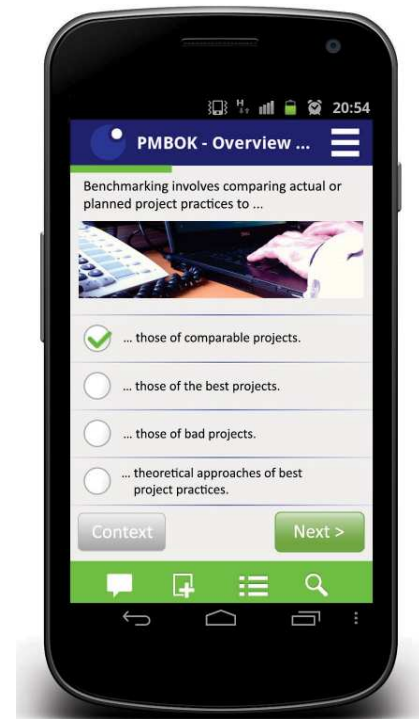

Get a quick overview of all content of a course. Access individual learning cards in a respective course directly.

> Knowledge at a glance

4. SEARCH

Find and access learning cards instantly whenever you need to apply the knowledge.

> In-time knowledge
